RICHLANDS.

Last April we began to advertise our town lots, making at that time a number of statements in regard to what we would do. Through the non-completion of the Clinch Valley extension of the Norfolk and Western our railroad facilities at that time were very limited. We had no railroad station and, indeed, one old farmhouse was the total sign of life about the place. Since then the railroad has erected a fine brick and stone freight station, one of the largest on the road, and will shortly erect a fine passenger station, while the Clinch Valley Company has spent, or is under contract to expend, \$350,000. A four-story hotel, the finest in Southwest Virginia, is under roof; a handsome iron bridge, of 180 feet span, crosses the Clinch river; two second-class hotels have been built, and a large number of stores are building under contract. The company has erected a handsome three-story building for its offices, and a fine stone bank building is nearing completion. Machinery for the rolling mill is on the grounds, and the track to the coal mines, three miles away, is completed, and coal is now coming out. A steam brick plant, the most complete in Southwest Virginia, is in operation, and a large amount of grading and other work is going on. This work attracts a great deal of attention, while Richlands is merely at the end of a non-completed line. The completion of the Clinch Valley division this fall, and the running of through trains between Washington and Louisville, putting Richlands immediately on a through line, will give an impetus to the prosperity of the town sufficient to throw it ahead of all competitors, and the attention of investors is called to real estate here as giving greater promise than any town in Southwest Virginia.

CHICAGO, Sept. 24.—[Special]—Wheat fair; speculative business was transacted with a lower range of prices. The feeling was nervous and unsettled. A great deal of long wheat was closed out and around \$1.00 for December and good many stop losses limits were reached. It was continuation of yesterday's weakness. The offerings were heavy and the demand only moderate, an effort to check declining prices being only partially successful. Opening was weak and ¼@¾ lower than yesterday's closing, but there was a rally of ½@¾ soon after opening, which again took the down turn and prices declined ¼, with December suffering still greater reduction. A quick rally of ¾ followed, but quickly receded again, the market at this point showing considerable nervousness, and after fluctuating closed about one cent lower than yesterday.

Corn was only moderately active, trade being local. The feeling prevailing was weaker. The first trades were at a slight decline, after which the market hardened some, but soon ruled weak, selling off at ¼@¾, changed some, and closed with a loss of ¼@¾. Oats were traded in fairly at an irregular range of prices. Trading was mainly in May, which fluctuated ¾. Opening was steady with fair bidding by shorts, and prices advanced ½. Prices quickly receded ¾, rallied slightly, but again weakened and receded ¾ more, and the market finally closed at ¼@¾, declining from yesterday. Mess pork trading was only of moderate volume; in January and May the decline was 6@7½, there being slight recovery from extreme inside figures. Lard was only moderately active; prices ruled quite weak, and the latest quotations were practically at the bottom. In short-rib sides fairly liberal business was done.

There was a shrinkage for the day of 5 cents. The leading futures ranged:
